

## Specification Sheet

CaSO<sub>4</sub>, Purity: 99.9%, APS: 80-100nm

Stock No: NS6130-12-000658, CAS: 7778-18-9

|                              |   |                                   |
|------------------------------|---|-----------------------------------|
| <b>Product</b>               | : | <b>Calcium sulfate Nanopowder</b> |
| Stock No                     | : | NS6130-12-000658                  |
| CAS                          | : | 7778-18-9                         |
| Purity                       | : | 99.9%                             |
| APS                          | : | 80-100nm                          |
| Molecular Formula            | : | CaSO <sub>4</sub>                 |
| Molecular Weight             | : | 136.14g/mol                       |
| Form                         | : | Powder                            |
| Color                        | : | White                             |
| Density                      | : | 2.96g/cm <sup>3</sup>             |
| Melting Point                | : | 1460°C                            |
| Solubility                   | : | Soluble in Water                  |
| <b>Main Inspect Verifier</b> | : | <b>Manager QC</b>                 |
